

**Rule 86 Acreage Table**  
for additional acreage granted per Statewide Rule 86

Courtesy of Permian Regulatory Solutions PLLC  
[www.permianregulatory.com](http://www.permianregulatory.com)

Fields with density <b>less than or equal</b> to 40 acres per field rules		
Horiz Displacement, FTP to LTP		Add'l Acreage added to field rule density
From	To	
100	585	20
586	1170	40
1171	1755	60
1756	2340	80
2341	2925	100
2926	3510	120
3511	4095	140
4096	4680	160
4681	5265	180
5266	5850	200
5851	6435	220
6436	7020	240
7021	7605	260
7606	8190	280
8191	8775	300
8776	9360	320
9361	9945	340
9946	10530	360
10531	11115	380
11116	11700	400
11701	12285	420
12286	12870	440
12871	13455	460
13456	14040	480
14041	14625	500

To use these tables, consult field rules for **standard** density. Do not consider optional density rules for table selection. However after calculating the additional acreage earned, optional acreage can be added (as in Spraberry Trend Area, this would be plus 160 acres rather than plus 80 acres

Fields with density <b>greater</b> than 40 acres per field rules		
Horiz Displacement, FTP to LTP		Add'l Acreage added to field rule density
From	To	
150	827	40
828	1654	80
1655	2481	120
